Luc Chatel
Chairman
Odyssey Education

"Odyssey Education is a proud partner of the Agency for French Education Abroad (AEFE).

From day one, our group has placed multilingual excellence and family satisfaction at the heart of our mission. We are committed to giving every student the tools they need to achieve academic success and personal growth within an ambitious educational environment."

Welcome to the Collège International Français de Sarajevo (CIF Sarajevo),

At the French International School of Sarajevo, we welcome students from early childhood through high school graduation (ages 2 to 18), providing a seamless, coherent, and continuous educational journey. Housed in a spacious, light-filled Austro-Hungarian building, our school offers an inspiring setting designed to nurture curiosity, personal growth, and academic achievement.

As an accredited AEFE partner, CIF Sarajevo delivers the French National Curriculum and prepares students for official French national examinations, from the Diplôme National du Brevet to the Baccalauréat. Fully accredited by the French Ministry of Education and recognized by Bosnian educational authorities, our school guarantees seamless academic continuity and opens doors to higher education in France, Europe, and around the world.

Our institutional vision is built on excellence and global mindedness. We support every student's journey by developing their cultural, scientific, civic, and linguistic abilities within a multilingual and intercultural environment that connects France, Bosnia and Herzegovina, Europe, and the world.

Language learning is a cornerstone of our curriculum. Through tailored ability groups, vibrant cultural projects, and educational trips, our dedicated faculty guides each student toward language fluency, cultural awareness, and personal fulfillment. All of this takes place within a welcoming, close-knit community that fosters confidence, autonomy, and success.

Our commitment is to cultivate a rigorous yet caring school environment where students are supported in building their future and realizing their full potential.

I invite you to discover CIFS, a place where every student can learn, grow, and build their future with confidence.

5

reasons to choose the French International School of Sarajevo

1 Academic excellence in Sarajevo

- A proven and prestigious academic foundation
- 100% Pass Rate on the French Baccalauréat
- Fully accredited by both the French AEFE network and the Ministry of Education of the Canton of Sarajevo
- Located in a city rich in history, culture, and heritage

2 A truly international education

- Multilingual learning in French, Bosnian/Croatian/Serbian, and English starting in Preschool
- A dedicated integration Program (Passerelle) supporting non-French-speaking students
- A vibrant, multicultural community welcoming families from around the world

3 Personalized student support

- Tailored guidance and care: dedicated student life coordinators, school psychologist, specialized language teachers, and homework support
- Empowering leadership opportunities: Student Councils (Middle & High School), class representatives, and community outreach initiatives

4 A caring and inclusive community

- Active parent partnership fully engaged in school life
- Core humanist values uniting our community and guiding daily life
- Passionate, highly qualified faculty committed to student success
- The strength of the Odyssey Education network, connecting 12 international French schools worldwide

5 Prepared for the future and the world

- Internationally recognized language certifications (DELTA, Cambridge English Qualifications)
- Enriching cultural, scientific, and civic projects throughout the school year
- Comprehensive guidance for higher education in France and top global universities
- Personal growth focus: cultivating critical thinking, independence, and self-confidence

“ Il n'y a pas de meilleures graines que celles qu'on plante dans l'esprit des enfants. ”

– Victor Hugo

“ Play is the highest form of research. ”

– Albert Einstein

“ Dajte djetetu vrijeme da sanja, jer u snovima raste njegova mašta. ”

EARLY YEARS

Fostering a love for learning and togetherness

To support healthy development and **multilingual fluency** from the earliest age, our Early Years program provides personalized care, builds **strong foundational skills**, and immerses children in a rich multicultural environment. We encourage **balanced growth through arts and sports** while stimulating **critical thinking and memory** through **play and communication**.

Our commitments

•Personalized student care

We prioritize every young learner's individual developmental needs, placing well-being and self-confidence at the heart of our practice.

•Strong learning foundations

Our curriculum builds the core competencies required for future academic success: understanding concepts, expressing ideas, and exploring the world.

•Play-based & reflective learning

We emphasize hands-on, play-based activities that boost memory, curiosity, and intrinsic motivation.

•Multilingual and multicultural setting

Alongside French, students begin Bosnian / Croatian / Serbian from Early Childhood (Toute Petite Section) and English from Pre-K (Petite Section), enjoying daily immersion in a vibrant language environment.

•Growing through arts & physical education

Daily sports and artistic pursuits ensure harmonious development—connecting movement, senses, imagination, critical thinking, and language skills.

ELEMENTARY

The early years of educational excellence

Combining **high standards with a caring approach**, our elementary years focuses on mastering core fundamentals and daily multilingual practice. Particular emphasis is placed on building strong foundations **in mathematics and languages**. The curriculum is further enriched by projects that foster scientific and digital literacy, alongside daily sports and artistic expression.

Our commitments

• Mastery of core fundamentals

Instilling a love for reading, writing, and arithmetic while teaching mutual respect.

• Everyday multilingualism

Guiding students toward fluid learning in French, Bosnian/Croatian/Serbian, and English to expand their worldview.

• Linguistic exploration

Sparking interest in deeper language study through grammar, spelling, and vocabulary.

• Mathematical foundations

Introducing core math concepts clearly and systematically, encouraging curiosity in science and digital technology.

• Critical thinking & observation

Nurturing observational skills and developing structured, organized reasoning.

• Expression & well-being

Engaging in daily physical education and exploring creative arts in depth.

Key strengths of our pedagogy & the French International education system

Key Strengths

An internationally recognized curriculum

The French National Curriculum is recognized by the world's top universities for its high academic standards and intellectual rigor.

Academic excellence from an early age

Renowned for its high expectations, particularly in mathematics, languages, literature, and science, the French system cultivates structured, analytical, and rigorous minds.

Fostering critical thinking and cultural literacy

Grounded in philosophy, humanities, civic education, and the arts, French pedagogy encourages open-mindedness and a deep understanding of the world.

Multilingualism at the Heart of Learning

By offering early language immersion from the youngest age, we prepare students to thrive in a globalized environment.

Holistic student development

For our youngest learners, our approach nurtures language, reasoning, emotional growth, motor skills, and socialization, striking the perfect balance between academic learning and well-being.

Independence and socialization as priorities

Our students learn to become independent, collaborate effectively, and develop emotional intelligence: essential life skills for their future!

08

The *Passerelle* integration program: A tailored support for non-French-speaking students

The Passerelle Programme is specifically designed to welcome and **support non-French-speaking students** whose mother tongue is not French. Its aim is to facilitate their gradual integration into the French education system while enabling them to rapidly develop their language and academic skills.

Through intensive and adapted teaching of French as the language of schooling (FLSco), students acquire the foundations they need to confidently follow classroom learning. The programme focuses on oral comprehension, written and spoken expression, as well as academic vocabulary, helping students develop independence and confidence throughout their educational journey.

Support is provided in **small groups, with differentiated activities and a variety of educational resources**, allowing us to respond to the specific needs of each student.

The Passerelle Programme is progressive: as students develop their French language skills, they are **gradually integrated** into mainstream classes until they are able to participate fully.

”

“Seeing a student progress brings true joy. Every breakthrough, no matter how small, boosts their confidence and reminds me every day why I chose to teach French.”

Emina GANIĆ, FLE-FLESCO Teacher

”

AFTER CIFS SARAJEVO

Open Doors to the AEFÉ Network:

All our classes, from the first year of preschool (Petite Section) to the final year of high school (Terminale), are accredited by the French Ministry of Education through the network of the Agency for French Education Abroad (AEFE). This accreditation guarantees that our school meets the requirements of the French education system and ensures the quality and consistency of the education provided.

As part of a worldwide network of more than 500 schools in nearly 140 countries, the Collège International Français de Sarajevo offers its students unique educational continuity: regardless of the country, the curricula, teaching methods and qualifications are the same. This network enables students to continue their education at another French school abroad or in France without any disruption to their academic journey.

At the end of 9th grade (Troisième), students have several options. They can continue their education at the French high school and prepare for the French Baccalauréat, a qualification recognised in more than 170 countries and providing access to French universities, the Grandes Écoles and numerous leading international programmes. Some students also choose to attend local Bosnian high schools.

The educational pathways students begin in high school naturally continue into higher education, both in France and internationally. Each year, our students enter demanding and highly regarded fields of study, including law, political science, medicine, business and engineering. These achievements reflect the academic excellence and comprehensive education provided by our school.

Gimnazija SSST

Towards Odyssey Schools Around the World:

As a member of the Odyssey Education group, the Collège International Français de Sarajevo offers its students privileged opportunities for international mobility. As part of this network, they can continue their education at the Institut International Saint-Dominique de Rome, a partner school within the network, accredited by the French Ministry of Education and recognised for its academic excellence.

Located on a spacious, green campus near Rome, the school offers both the French Baccalauréat and the International Baccalaureate (IB), taught in a multilingual and international environment. Students can also benefit from high-quality boarding facilities, providing a unique experience of community life while fostering independence, cultural openness and academic success.

Welcoming students from more than 40 nationalities, the Institut provides a genuine pathway to leading international universities and enables our students to fully embrace a journey of academic excellence and global citizenship.

MIDDLE SCHOOL

A launchpad for personal and academic success

The middle school years are crucial for developing strong study skills and mastering all the new content. We are committed to providing an integrated multilingual environment, individualized learning pathways, and personalized support. We foster independence, critical thinking, and students' personal development, while paying close attention both to the transition from primary school to middle school (Grades 6 and 7) and from middle school to high school (Grades 8 and 9).

Our commitments

• Supporting students in developing greater independence

Supporting students in successfully transitioning to a school environment that differs from primary school, with new routines and expectations such as timetables, multiple teachers, and a wider range of subjects.

• Learning how to learn and stay organized

Providing students with the tools and methods to learn more effectively, revise, and prepare for exams.

• Providing an advanced multilingual education

Immersing students in a multilingual environment across all educational pathways and subject areas.

• Fostering well-being and self-confidence

Apporter aux élèves un environnement, un suivi et une écoute active leur permettant de s'épanouir et de réaliser leurs potentiels.

• Encouraging versatility and Curiosity

Developing curiosity about the arts, literature, and sciences. Fostering cultural, artistic, sporting, and musical awareness.

• Preparing for exam challenges

The Diplôme National du Brevet (DNB) validates the knowledge and skills acquired at the end of middle school. It is based on Grade 9 annual results and five final examinations.

AN EXPANDED AND HIGH-QUALITY INTERNATIONAL LANGUAGE PROGRAMME FROM MIDDLE SCHOOL

Strong English proficiency: A distinctive advantage for our students

Building on their primary school education, our middle school students receive extensive English instruction, enabling them to reach B2 level (upper-intermediate/advanced).

Learning German and Spanish

In middle school, students have the opportunity to learn a second foreign language: German or Spanish.

Learning an additional language promotes international openness, cultural curiosity, and provides a valuable asset for continuing their studies in high school and beyond.

Preparation for language certifications

Language proficiency is a key pillar of student success. From Grade 9 (Troisième), students are prepared for the DELF B2 with a qualified teacher, enabling them to obtain an internationally recognized French-language certification. This certification is a valuable asset for pursuing further studies in a French-speaking environment.

In addition, the high school is currently developing preparation programmes for Cambridge English Qualifications, giving students the opportunity to certify their English proficiency according to international standards. These certifications strengthen students' academic profiles and facilitate international mobility.

$$\frac{e^2 \times e^{-2}}{e^{-1}} = \frac{e^0}{e^{-1}} = e^{0-(-1)} = e^1 = e$$

$$(e^{-1} \times e^{-2})^3 = (e^{-3})^3 = e^{-9}$$

Exercise 2

“ Une éducation internationale pour un avenir sans frontières. ”

“ High school is a community where friendships grow and futures are built. ”

“ Više od škole –
mjesto rasta, učenja i uspomena za cijeli život koje
otvara vrata svijeta. ”

High School

Paving the way to international excellence

During the final stage of secondary education, Collège International Français de Sarajevo continues to support students in their pursuit of **academic excellence**, preparing them for the **French Baccalauréat**. Students benefit from personalized guidance designed to help each of them achieve the best possible academic results and successfully pursue **higher education opportunities anywhere in the world**.

French Baccalauréat pathway

2nde 15 – 16 years old	• Methodological foundations • Guidance for choosing 3 specialty subjects out of the 7 offered • Consolidation of skills acquired in middle school • Strong scientific and humanistic culture
1ère 16 – 17 years old	• Preparation for early Baccalauréat examinations and guidance toward higher education • Support in choosing the final 2 specialty subjects presented for the Baccalauréat
Terminale 17 – 18 years old	• Culmination of secondary education, crowned by the Baccalauréat and the finalization of university pathways • Fostering engaged and enlightened global citizens

Specialty subjects (Enseignement de Spécialités)

We offer a wide range of subject specializations, enabling each student to build an ambitious academic pathway tailored to their future plans. The specializations offered open the door to a wide range of higher education opportunities, both in France and abroad, in fields such as science, engineering, medicine, economics, law, international relations and communications.

Mathematics	Physics & Chemistry
History-Geography	Geopolitics
Political Science	Foreign Languages
Literatures	English Culture
Economic & social sciences	

To meet all students' career and higher education plans, we also offer the possibility of taking additional specializations through the French National Centre for Distance Education (CNED), providing greater flexibility in building individualized academic pathways.

POURQUOI PREPARER LE BACCALAUREAT AU LYCEE DU CIF SARAJEVO ?

A diploma recognized worldwide

The French Baccalauréat is recognized in more than 170 countries and provides access to a wide range of universities and higher education institutions around the world.

Privileged access to French Higher Education

It provides access to universities, preparatory classes (Classes Préparatoires) and prestigious Grandes Écoles in France, renowned for their academic excellence and international reputation.

A personalized learning environment

Small class sizes foster individualized support, interactive and participatory teaching, and genuine close relationships between students and their teachers.

Developing key skills

The curriculum is designed to develop critical thinking, independence, analytical skills and oral communication — essential skills for success in higher education.

A sought-after academic profile

Educational projects (community service, innovation, civic engagement) enrich students' educational journeys and strengthen their applications to leading universities.

A strong and recognized alternative to other diplomas

The French Baccalauréat stands out for its balance of academic rigor, broad general knowledge and progressive specialization, providing an excellent alternative to local education systems

100%
pass rate
on the Baccalauréat

School Exchange ADN AEFÉ

A unique opportunity for Year 10 students to immerse themselves in the culture of a foreign country, fostering intercultural learning and exchange..

BHS Education in upper secondary school

BHS (Bosnian, Croatian and Serbian) is taught throughout our students' education. It enables them to strengthen their command of the local language while gaining a deeper understanding of the culture and environment in which they live.

This dual linguistic and cultural competence enriches our students' profiles and is also a valuable academic asset, facilitating access to universities in the region, particularly in Sarajevo, Belgrade and Zagreb, as well as to universities internationally.

INSPIRING WORDS FROM OUR PASSIONATE TEACHERS!

Lejla ŠLJIVO,
TPS/MS Teacher

“Our school stands out for its personalised approach to language learning, recognising that every child is unique and brings their own knowledge and experiences. Small groups are ideal for language learning, as they allow teachers to give individual attention to each student.”

Aida VOLODER,
Bosnian, Croatian and
Serbian Teacher for
International Students

“What motivates me every day is seeing our students make progress. Beyond academic learning, they develop essential skills such as independence, self-confidence and the ability to live together while respecting differences. They learn to express themselves, but also to listen to others with care and attention.

At the CIFS, every child matters. Each student progresses at their own pace, in a caring environment that fosters confidence and a genuine love of learning.”

Selmira ISAKOVIĆ,
CE2 Teacher

“The complex world we live in increasingly requires people who are not only multilingual but also multicultural. I firmly believe that by providing students with exposure to different languages and cultures, we help shape more open-minded and responsible adults for the future.”

Aida SERDAR
Physics-Chemistry and
Mathematics Teacher

“Our school stands out for its modern and diverse approach to language teaching, making learning dynamic and engaging for students. We place particular emphasis on learning through practical work and projects. Students regularly explore a variety of topics independently, prepare presentations and debates, and take part in different creative activities. Through this hands-on approach, they naturally develop their language skills.”

Samra MUMINOVIĆ
English teacher

SERVICES TO SUPPORT OUR FAMILIES

Activities Throughout the Year

Extracurricular activities

From Grande Section (the final year of preschool), students have the opportunity to take part in a wide range of extracurricular activities offered after school.

Our school offers a varied programme of sports, cultural and artistic activities, allowing every child to discover their talents, develop their creativity and thrive.

Homework support

Homework support provides students with guidance and assistance as they complete their independent work.

Supervised by their class teacher, students can review concepts covered in class, ensure they fully understand the instructions and organise their work in a calm and structured environment.

This programme aims to develop students' independence, effective and consistent study habits, and self-confidence.

Before - and After-School Care

We offer daily before- and after-school care, from 7:30 to 8:30 a.m. and in the afternoon until 5:30 p.m. Students are welcomed in a safe and caring environment under the supervision of qualified school staff. This service provides families with greater flexibility while ensuring that children receive attentive care before and after classes.

Holiday camps

During school holidays, the school offers holiday camps open to students from preschool onwards. Our camps encourage students' learning and development in a fun, caring and stimulating environment. The programme includes educational and recreational activities, sports and arts activities, creative workshops, group games, outings, age-appropriate themed projects, as well as French language classes to strengthen students' language skills.

Facilities and services designed to support our students' well-being and development

• School Catering

Our school catering service offers menus tailored to children's nutritional needs, using a varied selection of quality ingredients to meet students' expectations. We aim to provide balanced meals, prioritising fresh, natural foods over frozen or highly processed products, while also educating students about the importance of a complete and balanced diet.

• The Library

The library is a space dedicated to curiosity and learning. Students can borrow a wide range of books and resources.

This welcoming environment encourages independence, concentration and a love of reading. Regular book- and reading-related activities are organised to stimulate students' interest in literature and broaden their cultural knowledge.

• Sports Facilities

This space enables our students to practise a variety of sports as part of their classes, extracurricular activities and holiday camps.

• School Transportation

School transportation is organised by the school to make everyday life easier for families. Minibuses pick up students from their homes each morning and take them to school, then bring them home after classes. This service provides a convenient, reliable and safe solution for students' daily journeys.

Wearing a school uniform reflects strong educational and philosophical values, while strengthening students' sense of belonging to the CIFS Sarajevo community and to the schools within the Odyssey Education group. More than simply an outfit, the uniform creates a harmonious environment and helps foster an inclusive atmosphere.

ADMISSIONS PROCESS

1. APPLICATION FILE

Complete your application online via the Edeka portal.
Documents to upload: school reports and copies of the parents' and child's passports.

2. APPLICATION REVIEW & EDUCATIONAL INTERVIEW

After submitting your application, you will be offered an educational interview within 5 working days.

3. ADMISSION DECISION

Following the admissions committee's decision, your child's place will be confirmed by email within 2–3 days.

Amar VRANAC & Lejla SULJA
Communication managers

We invite you to visit our school. Our team will be delighted to welcome you and guide you through every step of the process, from the educational meeting to your child's enrolment.

4. PAYMENT OF REGISTRATION FEES

Once admission has been confirmed, we invite you to pay the first-time registration fee. In the event of withdrawal, the first-time registration fee is non-refundable.

5. WELCOME TO THE INTERNATIONAL FRENCH SCHOOL OF SARAJEVO!

Your child's enrolment will be officially confirmed by email within 7 days of payment.

ODYSSEY EDUCATION MULTILINGUAL FRENCH INTERNATIONAL SCHOOLS

Odyssey Education's mission is to provide every student with a French and international education and a privileged place within a caring and dynamic community where they can thrive and build their future.

Across all Odyssey schools, highly qualified educational teams are committed to guiding each student towards success and helping them build their future pathway in higher education.

In a few figures:

- **12 schools**
- **11 countries across 3 continents**
- **From preschool to high school**
- **70+ student nationalities**

Recognised by the French authorities for the quality of its educational offering, Odyssey Education has entered into a framework agreement with the French public operator, the Agency for French Education Abroad (AEFE), further strengthening its role as a privileged partner within the French international education network.
